injection solution
 - Dispensed in pre-filled Multidose vials
 - 45 day beyond use date, discard 28 days after use
- | |
|------------------------------|
| \$149 – 1 mL (2.5 mg total) |
| \$219 – 2 mL (5 mg total) |
| \$279 – 3 mL (7.5 mg total) |
| \$329 – 4 mL (10 mg total) |
| \$369 – 5 mL (12.5 mg total) |

TIRZEPATIDE 5 MG/0.5 ML

- **5 mg/0.5 mL Tirzepatide**
injection solution
 - Dispensed in pre-filled Multidose vials
 - 45 day beyond use date, discard 28 days after use
- | |
|----------------------------|
| \$179 – 1 mL (10 mg total) |
| \$279 – 2 mL (20 mg total) |
| \$359 – 3 mL (30 mg total) |
| \$429 – 4 mL (40 mg total) |
| \$499 – 5 mL (50 mg total) |
| \$559 – 6 mL (60 mg total) |

SEMAGLUTIDE SUSPENSION

- **1 mg/mL** \$160 – 15 mL (15 mg total)
- **2 mg/mL** \$185 – 15 mL (30 mg total)
- **4 mg/mL** \$295 – 15 mL (60 mg total)
 - Compounded using an exclusive, all new, suspension vehicle, SubMagna, that has permeation-enhancing properties and the ability to deliver high molecular weight drugs. Do not let your patients use a product with an inferior suspension vehicle.
 - Beyond use date of 90 days
 - Place 0.5 mL under the tongue, hold there for at least 90 secs, then swallow once daily. No food or drink for 30 mins.

- All orders include administration supplies (1 mL insulin syringes and alcohol pads)
- Flat rate \$35 overnight shipping available
- Injections sourced from a licensed Georgia sterile compounding pharmacy and this program has been thoroughly reviewed by GDNA (Georgia Drugs and Narcotics Agency). Suspensions on site.
- Ordering, please contact us at any location, or email at John@kingsrx.net.
